**therantingpanda** Because Thursday is the new Friday.

Absolutely digging the soon-to-be-launched Truffle Lobster Roll from [@pinceandpints](#), with its lobster meat cooked with truffle sauce, topped with truffle caviar and shaved truffle. The roll has a balanced truffle flavour on its own, but real truffle lovers can further up the truffle ante with the generous serving of truffle sauce.

Oh my. I can have this everyday. Will be available from 14 September onwards!
